What are your benefits?

1. Maturity Benefit

On policy maturity (end of policy term), you will receive your Fund Value.

To clearly understand how maturity benefit works, let us take a look at Ankit's story.

Ankit is 35 years old and has chosen to invest in **Generali Central Sampoorna Samadhan Plan**, with a Policy Term of 10 years, an annual premium of Rs. 1,00,000 for 10 years. His Death Benefit Multiple is 30 times and a Sum Assured (cover amount) of Rs. 10,00,000.

Note: For the purpose of illustration, we have assumed 8% p.a and 4% p.a as the higher and lower values of investment returns. These rates are not guaranteed, and they are not the upper or lower limits of returns of the Funds selected in your policy, as the performance of funds depends on several factors including future investment

Annexure 7

performance. These rates in no way signify our expectations of future returns and the actual returns may be higher or lower.

2. Death Benefit

In case of your unfortunate demise, the Death Benefit in this plan secures your family's financial well-being and future. The Death Benefit varies as per the age, Policy Term, Premium Payment Term, Death Benefit Multiple and Annualized Premium you choose.

The Death Benefit payable to the nominee shall be the higher of:

- Sum Assured less deductible partial withdrawals, if any, OR
- Fund Value under the policy, OR
- 105% of the total premiums paid (including top-up premiums paid, if any) till the date of death less deductible partial withdrawals, if any is payable.

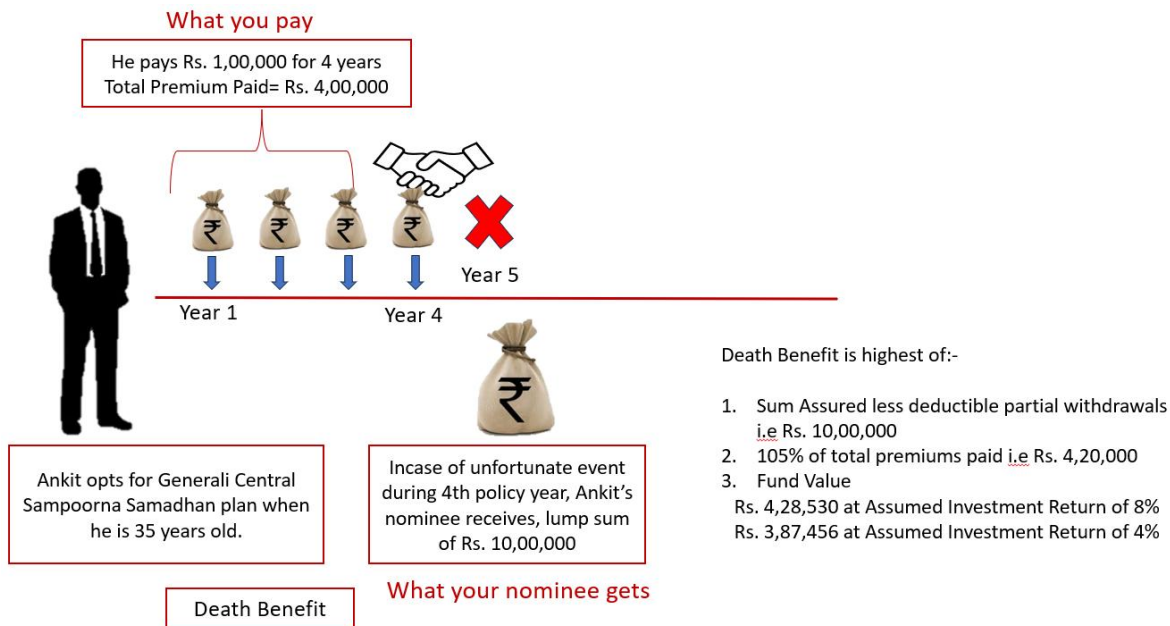

The Sum Assured is defined as Death Benefit Multiple * Annualized Premium.

Deductible Partial Withdrawals are Partial Withdrawals made in the 2 years prior to the date of death of the Life Assured.

The Policy will terminate on the payment of Death Benefit.

To clearly understand how the death benefit works, let us refer to Ankit's story.

Like we discussed, Ankit is 35 years old, and has invested in **Generali Central Sampoorna Samadhan Plan**, with a Policy Term of 10 years and Death Benefit Multiple is 30 times. In case of Ankit's unfortunate death after having paid just 4 premiums, the following illustration shows what his nominee will get:

Annexure 7

Note: For the purpose of illustration, we have assumed 8% p.a and 4% p.a as the higher and lower values of investment returns. These rates are not guaranteed, and they are not the upper or lower limits of returns of the Funds selected in your policy, as the performance of funds depends on several factors including future investment performance. These rates in no way signify our expectations of future returns and the actual returns may be higher or lower.

The company will give effect to this switch by cancelling units in the old fund(s) and allocating units to the new fund(s) at the applicable unit price. The amount to be switched should be at least Rs. 5,000. The switch request shall be processed as per the IRDAI guidelines.

Unlimited free switches are allowed in the plan.

Fund Switching will not be allowed when Auto Invest Rule is active.

2. Premium Redirection

Redirection will not affect the premiums paid prior to the request. A maximum of two premium redirections are allowed in a policy year.

3. Partial Withdrawal

Partial withdrawals can be made only after the completion of lock-in period of 5 policy years from the policy commencement date. 4. Systematic Transfer Option (STO)

Systematic Transfer Option (STO) is a feature which allows auto switching of units from one segregated fund to another segregated fund. You have the option to weekly transfer the Fund Value available under one specific Fund to another fund by making a written request to the Company. Once this feature is used, the Fund Value available under one specific fund will be transferred to another fund on a weekly basis for 48 weeks. The policyholder can submit STO request anytime during the policy term. The policyholder cannot make another STO request until the current STO instruction has been completed or has been cancelled.

The fund from which the units will be transferred is called the '**Selected Fund**' and the fund to which the units will be deposited is called the '**Target Fund**'. At any point in time, a STO request is only applicable between any one Selected Fund and any one Target Fund. The remaining 7 funds will not be affected or participate in the STO.

Annexure 7

Once a STO request is placed, units from the Selected Fund will be transferred to the Target Fund through 48 automatic switches on the 7th, 14th, 21st and 28th of each calendar month for a 12-month period. Under every automated switch in a given STO, $1/X$ th of units from the Selected Fund will be transferred to the Target Fund, Where X = no of automatic switches which are left to be done in the given STO request i.e. X will be 48 for the first automated switch, it will be 47 for the second automated switch and it will be 1 for the 48th automated switch.

Premiums by Policyholder can come in any of the 9 segregated funds. Future premium redirection can be done in any of the 9 segregated funds.

However, during the period in which STO is invoked, no switching can take place in any of the 9 segregated funds.

The policyholder has the option to stop the STO by providing a written request to the Company. Once the STO is stopped, the policyholder can switch units between segregated funds as needed.

A policyholder can make further STO requests after the completion of a previous STO request. STO will apply to both future premiums as well as existing premiums in the Selected Fund. The NAV applicable for STO will be the NAV of the Selected Fund and target fund on the day when the STO takes effect.

STO will not be activated when Auto Invest Rule is active.

STO will stop if:

- The fund value of the Selected Fund becomes zero; or
- The policyholder has submitted a request to stop the STO.

There are no charges for STO.

5. Systematic Partial Withdrawal

This feature allows the policyholder to withdraw a monthly amount from the policy during the policy term. At any time during the policy term after the end of the lock-in period, the policyholder may request us to make systematic partial withdrawals from the fund under the policy. The policyholder shall be required to specify the withdrawal start date, amount of withdrawal and the number of withdrawals to be done in the request. 2. Discontinuance

Annexure 7

“Discontinuance” means the state of a policy that could arise on account of surrender of the policy or non-payment of the premium due before the expiry of the grace period.

The Fund management charges of discontinued fund will be applicable during this period and no other charges will be applied.
 - ii) In case the policyholder does not exercise the option as set out above, the policy shall continue without any risk cover and rider cover, if any, and the policy fund shall remain invested in the discontinuance fund. At the end of the lock-in period, the proceeds of the discontinuance fund shall be paid to the policyholder and the policy shall terminate.
 - iii) However, the policyholder has an option to surrender the policy anytime and proceeds of the discontinued policy shall be payable at the end of lock-in period or date of surrender whichever is later.

Explanation; “Proceeds of the discontinued policies” means the fund value as on the date the policy was discontinued, after addition of interest computed at the interest rate stipulated under section Discontinued Policy Fund.

- (1) To revive the policy within the revival period of three years, or
 - (2) Complete withdrawal of the policy.
- d) In case the policyholder opts for (1) i.e. “to revive the policy within the revival period of three years” but does not revive the policy during the revival period, the fund value shall be paid to the policyholder at the end of the revival period.
- e) In case the policyholder does not exercise any option as set out above, the policy shall continue to be in reduced paid up status. At the end of the revival period the proceeds of the policy fund shall be paid to the policyholder and the policy shall terminate.
